

Biography

Daniel Creus

Senior Security Researcher, Global Research & Analysis Team, Kaspersky

Daniel Creus has been working in the cybersecurity industry for more than 15 years, acquiring practical knowledge on several information security disciplines (e.g. offensive/defensive/research) and specializing in high profile investigations worldwide.

Prior to joining the Global Research & Analysis Team (GReAT) at Kaspersky, Daniel worked as a lead investigator - performing incident response in Verizon's RISK Team. He also formed part of the Unit 42 intelligence team at Palo Alto Networks and worked as e-crime analyst at S21sec, where he was mainly involved in threat intelligence and cybercrime research.

Daniel has also co-authored a book *Fraude on-line: Abierto 24 horas* (Online Fraud: Open 24 hours) about e-fraud, criminal infrastructures and the underground economy.
